Final Decision and Order

Based upon the details of the Canadian Standards Association's original application for recognition, its requests for expansion, the original and renewal on-site assessments, and all of the programs that it has utilized for many years in testing and certifying products in its Product Certification Program (under its Canadian accreditation), and the fact that the controls for the various programs had already been established to enable it to test and certify products under the programs and procedures which it has requested, OSHA finds that the Canadian Standards Association has met the requirements of 29 CFR 1910.7 for expansion of its recognition to utilize the specific programs and procedures noted below in testing and certifying products.

Pursuant to the authority in 29 CFR 1910.7, CSA's recognition is hereby expanded to include the eight programs and procedures cited below, subject to the conditions listed below.

Expansion of Recognition—Programs and Procedures

1. Acceptance of testing data from independent organizations, other than NRTLs.
 2. Acceptance of product evaluations from independent organizations, other than NRTLs.
 3. Acceptance of witnessed testing data.
 4. Acceptance of testing data from non-independent organizations.
 5. Acceptance of evaluation data from non-independent organizations (requiring NRTL review prior to marketing).
 6. Acceptance of continued certification following minor modifications by the client.
 7. Acceptance of product evaluations from organizations that function as part of the International Electrotechnical Commission Certification Body (IEC-CB) Scheme.
 8. Acceptance of services other than testing or evaluation performed by subcontractors or agents.
- The Canadian Standards Association must also abide by the following

conditions of the expansion of its recognition, in addition to those already required by 29 CFR 1910.7;

This recognition does not apply to any aspect of any CSA program which is available only to qualified manufacturers and is based upon the NRTL's evaluation and accreditation of the manufacturer's quality assurance program;

The Occupational Safety and Health Administration shall be allowed access to CSA's facilities and records for purposes of ascertaining continuing compliance with the terms of its recognition and to investigate as OSHA deems necessary;

If CSA has reason to doubt the efficacy of any test standards it is using under this program, it shall promptly inform the test standard developing organization of this fact and provide that organization with appropriate relevant information upon which its concerns are based;

CSA shall not engage in or permit others to engage in any misrepresentation of the scope or conditions of its recognition. As part of this condition, CSA agrees that it will allow no representation that is either a recognized or an accredited Nationally Recognized Testing Laboratory (NRTL) without clearly indicating the specific equipment or material to which this recognition is tied, or that its recognition is limited to certain products;

CSA shall inform OSHA as soon as possible, in writing, of any change of ownership or key personnel, including details;

CSA will continue to meet the requirements for recognition in all areas where it has been recognized; and

CSA will always cooperate with OSHA to assure compliance with the spirit as well as the letter of its recognition and 29 CFR 1910.7.

EFFECTIVE DATE: This recognition will become effective on November 20, 1996 and will be valid until December 24, 1997, (a period of five years from the date of the original recognition, December 24, 1992), unless terminated prior to that date, in accordance with 29 CFR 1910.7.

Signed at Washington, D.C. this 12th day of November, 1996.

SUPPLEMENTARY INFORMATION:

A. Background

ETL Testing Laboratories, Inc. was acquired by Inchcape, plc, and became part of Inchcape Inspection and Testing Services, U.S.A., Inc. (IITS), a Delaware corporation on August 1, 1988. On April 26, 1988, DS&G applied for recognition as a Nationally Recognized Testing Laboratory (NRTL) and was so recognized on June 16, 1989 (see 54 FR 25643). ETL applied for NRTL recognition on May 12, 1988, and was so recognized on September 13, 1989 (see 54 FR 37845). DS&G was acquired by IITS on March 1, 1991. The DS&G location became ETL Testing Laboratories, Inc., DS&G Safety Division, functioning as a testing laboratory for ETL. DS&G also continued to retain its NRTL recognition and the capability of issuing its own certification mark. In March of 1993, ETL and other Inchcape owned laboratories came under the umbrella heading of Inchcape Testing Services. There was no change, however, to ETL's ownership or legal identity. DS&G requested renewal of its recognition as an NRTL on September 8, 1993. This request was iterated by letter dated May 18, 1995 from DS&G's president. On October 4, 1996, Inchcape Testing
