

and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The information collection requirements specified in the 13 Carcinogens Standard protect employees from the adverse health effects that may result from their exposure to the 13 Carcinogens. The following is a brief description of the collection of information requirements contained in the 13 Carcinogens Standard: establishing and implementing a medical surveillance program for employees assigned to enter regulated areas, informing employees of their medical examination results and providing them with access to their medical records. Further, employers must also retain employee medical records for specified time periods and provide these records to the National Institute for Occupational Safety and Health (NIOSH) under certain circumstances.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the collection of information requirements contained in the 13 Carcinogens Standard (29 CFR 1910.1003). The Agency is requesting to reduce its current burden hour estimate associated with the Standard from 1,657 hours to 1,604 hours for a total reduction of –53 hours. The reduction is primarily the result of decreasing both the number of establishments (from 97 to 93 establishments) and the number of exposed employees (from 663 to 643). The Agency will include this summary in its request to OMB to extend the approval of these collection of information requirements.

Type of Review: Extension of a currently approved collection.

Title: 13 Carcinogens Standard (29 CFR 1910.1003).

OMB Number: 1218–0085.

Affected Public: Business or other for-profits; Federal Government; State, Local or Tribal Government.

Number of Respondents: 93.

Total Responses: 2,119.

Frequency: On occasion.

Estimated Time per Response: Time per response ranges from approximately 5 minutes (for employers to maintain records) to 2 hours (for records access and transfer).

Total Burden Hours: 1,604.

Estimated Cost (Operation and Maintenance): \$88,816.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments and supporting materials in response to this notice by (1) Hard copy, (2) FAX transmission (facsimile), or (3) electronically through the OSHA Web site. Because of security-related problems, there may be a significant delay in the receipt of comments by regular mail. Please contact the OSHA Docket Office at (202) 693–2350 (TTY (877) 889–5627) for information about security procedures concerning the delivery of submissions by express delivery, hand delivery and courier service.

All comments, submissions and background documents are available for inspection and copying at the OSHA Docket Office at the above address. Comments and submissions posted on OSHA's Web site are available at <http://www.OSHA.gov>. Contact the OSHA Docket Office for information about materials not available through the OSHA Web site and for assistance in using the Internet to locate docket submissions.

Electronic copies of this **Federal Register** notice as well as other relevant documents are available on OSHA's Web site. Since all submissions become public, personal information such as social security numbers and date of birth should not be submitted.

V. Authority and Signature

Edwin G. Foulke, Jr., Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 5–2007 (72 FR 31159).

Signed at Washington, DC, this 22nd day of September 2008.

Edwin G. Foulke, Jr.,

Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510–26–P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA–2008–0036]

Inorganic Arsenic Standard; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comment.

SUMMARY: OSHA solicits comments concerning its proposal to extend OMB approval of the information collection requirements contained in the Inorganic Arsenic Standard (29 CFR 1910.1018).

DATES: Comments must be submitted (postmarked, sent, or received) by November 25, 2008.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Facsimile: If your comments, including attachments, are not longer than 10 pages, you may fax them to the OSHA Docket Office at (202) 693–1648.

Mail, hand delivery, express mail, messenger, or courier service: When using this method, you must submit three copies of your comments and attachments to the OSHA Docket Office, Docket No. OSHA–2008–0036, U.S.

Department of Labor, Occupational Safety and Health Administration, Room N-2625, 200 Constitution Avenue, NW., Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the Department of Labor's and Docket Office's normal business hours, 8:15 a.m. to 4:45 p.m., e.t.

Instructions: All submissions must include the Agency name and OSHA docket number for the ICR (OSHA-2008-0036). All comments, including any personal information you provide, are placed in the public docket without change, and may be made available online at <http://www.regulations.gov>. For further information on submitting comments see the "Public Participation" heading in the section of this notice titled "**SUPPLEMENTARY INFORMATION.**"

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the address above. All documents in the docket (including this **Federal Register** notice) are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. You may contact Jamaa Hill at the address below to obtain a copy of the ICR.

FOR FURTHER INFORMATION CONTACT: Jamaa N. Hill or Todd Owen, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, Room N-3609, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing efforts to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et*

seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657). The information collection requirements in the Inorganic Arsenic Standard provide protection for employees from the adverse health effects associated with exposure to inorganic arsenic. The Inorganic Arsenic Standard requires employers to: Monitor employees' exposure to inorganic arsenic; monitor employee health; develop and maintain employee exposure monitoring and medical records; establish and implement written compliance programs; and provide employees with information about their exposures and health effects of exposure to inorganic arsenic.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Inorganic Arsenic Standard (29 CFR 1910.1018). OSHA is proposing to decrease its current burden hour estimate of 4,861 to 385, a total decrease of -4,476 hours. The Agency reduced the number of employers covered by the standard from 42 employers to 3 employers as a result of a significant decline in arsenic consumption in the United States.

The Agency will summarize the comments submitted in response to this

notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Standard on Inorganic Arsenic (29 CFR 1910.1018).

OMB Number: 1218-0104.

Affected Public: Business or other for-profits; Federal Government; State, Local, or Tribal Government.

Number of Respondents: 3.

Frequency of Response: On occasion.

Average Time per Response: Time per response ranges from 5 minutes to maintain records to 1.67 hours to complete a medical examination.

Estimated Total Burden Hours: 385.

Estimated Cost (Operation and Maintenance): \$31,165.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

- (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal;
- (2) by facsimile (FAX); or
- (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2008-0036). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this Web site. All submissions, including copyrighted material, are available for inspection

and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.

V. Authority and Signature

Edwin G. Foulke, Jr., Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 5-2007 (72 FR 31159).

Signed at Washington, DC, this 22nd day of September 2008.

Edwin G. Foulke, Jr.,

Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510-79-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 03031655]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment Request to Byproduct Materials License No. 45-03499-08 for the College of William and Mary, Williamsburg, VA

AGENCY: Nuclear Regulatory Commission.

ACTION: Issuance of Environmental Assessment and Finding of No Significant Impact for License Amendment.

FOR FURTHER INFORMATION CONTACT:

Thomas K. Thompson, Senior Health Physicist, Commercial and R&D Branch, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania; telephone: (610) 337-5303; fax number: (610) 337-5269; or by e-mail:

Thomas.Thompson@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license renewal to Byproduct Materials License No. 45-03499-08. This license is held by The College of William and Mary (the Licensee) in Williamsburg, Virginia. As part of its license renewal, the Licensee has requested an exemption from the requirement in 10 CFR 30.32(g) to list sealed sources by their manufacturer and model number as registered under the provisions of 10 CFR 32.210. The Licensee requested this exemption in a letter dated October 31, 2005. The NRC has prepared an Environmental Assessment (EA) in support of this proposed action in accordance with the requirements of Title 10, Code of Federal Regulations (CFR), Part 51 (10 CFR Part 51). Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate with respect to the proposed action. The license renewal, including the approval of the exemption request, will be issued to the Licensee

following the publication of this FONSI and EA in the **Federal Register**.

II. Environmental Assessment

Identification of Proposed Action

The proposed action would renew License No. 45-03499-08, including approval of the Licensee's request for exemption submitted on October 31, 2005. License No. 45-03499-08 was issued on September 14, 1990, pursuant to 10 CFR Parts 30 and 70, and has been amended periodically since that time. This license authorized the Licensee for laboratory research, calibration, and teaching and training of students. It also authorized the possession of neutron sources containing plutonium for storage incident to disposal.

On June 29, 2005, the Licensee submitted its renewal application for License No. 45-03499-08. In a letter dated October 31, 2005, submitted in response to an inquiry from the NRC, the Licensee requested an exemption from the requirement in 10 CFR 30.32(g) to list sealed sources by manufacturer and model number as registered under the provisions of 10 CFR 32.210. In requesting this exemption, the Licensee states that most of its source inventory consists of sealed sources which have long been in their possession and that most do not bear a manufacturer's name or model number, and that it therefore would be unable to provide that information.

Need for the Proposed Action

The Licensee possesses neutron sources containing plutonium being held for disposal, and other sources of low activity, less than a millicurie each, and has possessed and used these sources for many years without incident. This exemption is needed to authorize the Licensee to continue to possess these sources.

Technical Analysis of the Proposed Action

10 CFR 30.11(a) states that the Commission may grant such exemptions from the requirements of the regulations as it determines are authorized by law and will not endanger life or property or the common defense and security and are otherwise in the public interest. The NRC staff has analyzed the Licensee's request to be authorized to receive and take possession of sealed sources and devices which have not been registered with the NRC under 10 CFR 32.210 or with an Agreement State. The NRC staff considered that the Licensee is qualified by sufficient training and experience and has sufficient facilities and equipment to handle these sources and
