SUPPLEMENTARY INFORMATION: This ICR
seeks to extend PRA authority for the
Safety Standards for Underground Coal
Mine Ventilation—Belt Entry Used as an
Intake Air Course to Ventilate Working
Sections and Areas Where Mechanized
Mining Equipment is Being Installed or
Removed information collection
requirements codified in regulations 30
CFR part 75. More specifically,
regulations 30 CFR 75.351 makes it
mandatory for a mine operator electing
to use belt air to ventilate a working
section or area where mechanized
equipment is being installed or removed
to maintain records used by coal mine
supervisors, miners, and Federal and
State mine inspectors to show required
examinations and tests were conducted.
These records give insight into
hazardous conditions that have been or
may be encountered. Inspection records
help in making decisions that ultimately
affect the safety and health of miners
working in belt air mines. Federal Mine
Safety and Health Act of 1977 sections
101(a) and 103(h) authorize this
information collection. See 30 U.S.C.
811(a) and 813(h).

This information collection is subject
to the PRA. A Federal agency generally
cannot conduct or sponsor a collection
of information, and the public is
generally not required to respond to an
information collection, unless it is
approved by the OMB under the PRA
and displays a currently valid OMB
Control Number. In addition,
notwithstanding any other provisions of
law, no person shall generally be subject
to penalty for failing to comply with a
collection of information that does not
display a valid Control Number. See 5
CFR 1320.5(a) and 1320.6. The DOL
obtains OMB approval for this
information collection under Control
Number 1219-0138.

OMB authorization for an ICR cannot
be for more than three (3) years without
renewal, and the current approval for
this collection is scheduled to expire on
December 31, 2016. The DOL seeks to
extend PRA authorization for this
information collection for three (3) more
years, without any change to existing
requirements. The DOL notes that
existing information collection
requirements submitted to the OMB
receive a month-to-month extension

while they undergo review. For
additional substantive information
about this ICR, see the related notice
published in the **Federal Register** on
June 30, 2016 (81 FR 42735).

Interested parties are encouraged to
send comments to the OMB, Office of
Information and Regulatory Affairs at
the address shown in the **ADDRESSES**
section within thirty (30) days of
publication of this notice in the **Federal
Register**. In order to help ensure
appropriate consideration, comments
should mention OMB Control Number
1219-0138. The OMB is particularly
interested in comments that:

- Evaluate whether the proposed
collection of information is necessary
for the proper performance of the
functions of the agency, including
whether the information will have
practical utility;
- Evaluate the accuracy of the
agency's estimate of the burden of the
proposed collection of information,
including the validity of the
methodology and assumptions used;
- Enhance the quality, utility, and
clarity of the information to be
collected; and
- Minimize the burden of the
collection of information on those who
are to respond, including through the
use of appropriate automated,
electronic, mechanical, or other
technological collection techniques or
other forms of information technology,
e.g., permitting electronic submission of
responses.
