DEPARTMENT OF LABOR

Office of the Secretary

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Respirable Crystalline Silica Standards for General Industry, Maritime and Construction

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting the Occupational Safety and Health Administration (OSHA) sponsored information

collection request (ICR) titled, “Respirable Crystalline Silica Standards for General Industry, Maritime and Construction” to the Office of Management and Budget (OMB) for review and approval for continued use, without change, in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that agency receives on or before March 2, 2020.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free of charge from the *RegInfo.gov* website at http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201908-1218-003 (this link will only become active on the day following publication of this notice) or by contacting Frederick Licari by telephone at 202–693–8073, TTY 202–693–8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Submit comments about this request by mail to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for DOL–OSHA, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503; by Fax: 202–395–5806 (this is not a toll-free number); or by email: OIRA_submission@omb.eop.gov. Commenters are encouraged, but not required, to send a courtesy copy of any comments by mail or courier to the U.S. Department of Labor–OASAM, Office of the Chief Information Officer, Attn: Departmental Information Compliance Management Program, Room N1301, 200 Constitution Avenue NW, Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT: Frederick Licari by telephone at 202–693–8073, TTY 202–693–8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Respirable Crystalline Silica Standards for General Industry, Maritime and Construction information collection. This collection contains the following requirements: Conducting worker exposure assessments and notifying workers of the assessment results and any corrective actions being taken; establishing, implementing, reviewing, evaluating, and updating a written exposure control plan and making the plan available to workers and designated representatives; creating and

submitting air quality permit notifications; establishing a respiratory protection program; providing qualitative fit-testing and maintaining records; providing medical surveillance to workers; providing the physician or other licensed health care provider (PLHCP), or the specialist, with specific information; ensuring that the PLHCP, or specialist, explains the results of the medical examination to the employee and provides each employee with a copy of their written medical report; obtaining a written medical opinion from the PLHCP, or specialist, and ensuring that each employee receives a copy of the opinion; and making and maintaining air monitoring data, objective data, and medical surveillance records; and providing workers and designated representatives with access to these records. The records are used by workers, employers, and OSHA to determine the effectiveness of the employer's compliance efforts.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218–0266.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on January 31, 2020. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 1, 2019 (84 FR 52144).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty-(30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number

1218–0266. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with section 51.118 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is

making available final Supplement 10, Second Renewal to NUREG–1437, regarding the renewal of Exelon Generation Company, LLC. (Exelon), operating licenses DPR–44 and DPR–56 for an additional 20 years of operation for Peach Bottom Atomic Power Station, Units 2 and 3 (Peach Bottom). A Notice of Availability of Draft Supplement 10, Second Renewal to NUREG–1437 was published in the **Federal Register** on August 9, 2019 (84 FR 39296), by the Environmental Protection Agency. The public comment period on draft Supplement 10, Second Renewal to NUREG–1437 ended on September 23, 2019, and the comments received are addressed in final Supplement 10, Second Renewal to NUREG–1437.

II. Discussion

As discussed in Chapter 5 of final Supplement 10, Second Renewal to NUREG–1437, the NRC staff determined that the adverse environmental impacts of subsequent license renewal for Peach Bottom are not so great that preserving the option of subsequent license renewal for energy-planning decisionmakers would be unreasonable. This recommendation is based on: (1) The analysis and findings in the GEIS; (2) information provided in the environmental report and other documents submitted by Exelon; (3) consultation with Federal, State, local, and Tribal agencies; (4) the NRC staff's independent environmental review; and (5) consideration of public comments received during the scoping process and on the Draft Supplemental Environmental Impact Statement.

Dated at Rockville, Maryland, this 27th day of January, 2020.

For the Nuclear Regulatory Commission.

Robert B. Elliott,

Chief, Environmental Review License Renewal Branch, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety and Safeguards.
