

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has determined not to review an initial determination (“ID”) (Order No. 26) of the presiding administrative law judge (“ALJ”) granting a joint motion to terminate the investigation as to the remaining respondents Altice USA, Inc. and CSC Holdings, LLC, both of Long Island City, New York, and Cablevision Systems Corp. of Bethpage, New York (collectively, “Altice”) based on a settlement agreement. The investigation is terminated.

**SUPPLEMENTARY INFORMATION:** On May 31, 2022, the Commission instituted this investigation under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337 (“section 337”), based on a complaint filed by Broadband iTV, Inc., of Austin, Texas (“BBiTV”). See 87 FR 32459 (May 31, 2022). The complaint alleges a violation of section 337 based upon the importation into the United States, sale for importation, or sale after importation into the United States of certain set-top boxes and systems and services including the same by reason of infringement of certain claims of U.S. Patent Nos. 9,866,909; 9,936,240; 11,277,669; and 10,555,014 (“the ’014 patent”). *Id.* The complaint further alleges that a domestic industry exists. *Id.* The notice of investigation names 10 respondents, including: Comcast Corporation and Comcast Cable Communications, LLC, both of Philadelphia, Pennsylvania, as well as NBCUniversal Media, LLC of Universal City, California (collectively, “the Comcast Respondents”); Charter Communications, Inc. of Stamford, Connecticut and Charter Communications Operating, LLC, Charter Communications Holding, Company, LLC, and Spectrum Management Holding, Company, LLC,

all of St. Louis, Missouri (collectively “the Charter Respondents”); and Altice. *Id.* The Office of Unfair Import Investigations is not named as a party. *Id.*

The Commission previously terminated the investigation as to all asserted patent claims of the ’014 patent based on BBiTV’s partial withdrawal of the complaint. Order No. 18 (Sept. 9, 2022), *unreviewed by* Comm’n Notice (Oct. 3, 2022).

The Commission also previously terminated the Comcast Respondents and the Charter Respondents from the investigation based on partial withdrawal of the complaint. Order No. 23 (Oct. 18, 2022), *unreviewed by* Comm’n Notice (Nov. 14, 2022); Order No. 24 (Oct. 20, 2022), *unreviewed by* Comm’n Notice (Nov. 14, 2022).

On November 1, 2022, BBiTV and Altice filed a joint motion to terminate the investigation based on settlement. No response to the unopposed motion was filed.

On November 15, 2022, the presiding ALJ issued the subject ID (Order No. 26) granting the joint motion to terminate the investigation. The subject ID finds that the joint motion complies with Commission Rule 210.21(b)(1) (19 CFR 210.21(b)) and that no extraordinary circumstances prevent denying the motion. The ID also finds that termination of the investigation based on settlement would not be contrary to the public interest. No party petitioned for review of the subject ID.

The Commission has determined not to review the subject ID (Order No. 26). The investigation is terminated.

The Commission vote for this determination took place on December 14, 2022.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission’s Rules of Practice and Procedure (19 CFR Part 210).

By order of the Commission.

Issued: December 15, 2022.

**Katherine Hiner,**

*Acting Secretary to the Commission.*

**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The collections of information specified in the Noise Standard protect workers from suffering material hearing impairment. The collections of information contained in the Noise Standard include conducting noise monitoring; notifying workers when they are exposed at or above an 8-hour time-weighted average of 85 decibels; providing workers with initial and annual audiograms; notifying workers of a loss in hearing based on comparing audiograms; maintaining records of workplace noise exposure and workers' audiograms; and allowing workers access to materials and records required by the standard.

**II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;

- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection, and transmission techniques.

**III. Proposed Actions**

OSHA is requesting that OMB extend the approval of the information collection requirements contained in Occupational Exposure to Noise Standard (29 CFR 1910.95). The agency is requesting an adjusted hour burden increase in the Standard from 2,240,636 to 2,368,281 (a total increase of 127,645 hours). The agency estimates that there are 283,524 establishments and 3,802,698 employees exposed to 85 dBA affected by the Standard. OSHA estimates that the number of establishments from the previous ICR increased by 0.76%, while the estimated number of employees from the previous ICR increased by 0.97%. These estimated increases are based on updated County Business Pattern data for manufacturing.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

*Type of Review:* Extension of a currently approved collection.

*Title:* The Occupational Exposure to Noise Standard (29 CFR 1910.95).

*OMB Control Number:* 1218-0048.

*Affected Public:* Business or other for-profits.

*Number of Respondents:* 283,524.
