Standards and Guidance, OSHA, U.S. Department of Labor; telephone (202) 693–2222.

SUPPLEMENTARY INFORMATION:**I. Background**

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of these requirements is to alert workers to the presence and types of electrical hazards in the workplace, thereby preventing serious injury and death by electrocution. The information collection requirements in these Standards involve the following: the employer using electrical equipment that is marked with the manufacturer's name, trademark, or other descriptive markings that identify the producer of the equipment, and marking the equipment with the voltage, current, wattage, or other ratings necessary; requiring each disconnecting means for motors and appliances to be marked legibly to indicate its purpose, unless located and arranged so the purpose is evident; requiring the entrances to rooms and other guarded locations containing exposed live parts to be marked with conspicuous warning signs forbidding unqualified persons from entering; and, for construction employers only, establishing and

implementing the assured equipment grounding conductor program instead of using ground-fault circuit interrupters.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Electrical Standards for Construction and General Industry. The agency is requesting an adjustment increase in burden from 200,045 hours to 210,693 hours, a difference of 10,648 hours. This increase is due to the increase in the number of establishments.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.*Title:* Electrical Standards for Construction and General Industry.*OMB Control Number:* 1218–0130.*Affected Public:* Business or other for-profits.*Number of Respondents:* 6,440,699.*Number of Responses:* 2,979,332.*Frequency of Responses:* On occasion.*Average Time per Response:* Varies.*Estimated Total Burden Hours:* 210,693.*Estimated Cost (Operation and Maintenance):* \$9,501,187.**IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions**

You may submit comments in response to this document as follows: (1) electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal; or (2) by facsimile (fax), if your comments, including attachments, are not longer

than 10 pages you may fax them to the OSHA Docket Office at (202) 693-1648. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (Docket No. OSHA-2011-0187). You may supplement electronic submission by uploading document files electronically.

Comments and submissions are posted without change at <https://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <https://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this website. All submission, including copyrighted material, are available for inspection and copying at the OSHA Docket Office.
