SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

OSHA is providing notice that DEKRA Certification Inc. (DEKRA), is applying for expansion of the current recognition as a NRTL. DEKRA requests the addition of seventeen test standards to the NRTL scope of recognition. OSHA's recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL's scope of recognition includes: (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification. The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides a final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including DEKRA, which details the NRTL's scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

II. General Background on the Application

DEKRA submitted an application to OSHA for expansion of the NRTL scope of recognition on December 24, 2021 (OSHA–2019–0009–0007), requesting the addition of twenty-nine recognized testing standards. The application was amended on February 1, 2023 (OSHA–2019–0009–0008), removing eight standards from the original request, while adding an additional standard to the expansion application. The December 2021 expansion application was amended a second time on June 21, 2023 (OSHA–2019–0009–0009) to withdraw three standards from the December 2021 application. The December 2021 application was

DEKRA currently has two facilities (sites) recognized by OSHA for product testing and certification, with the headquarters located at: DEKRA Certification Inc., 405 Glenn Drive, Suite 12, Sterling, Virginia 20164. A complete list of DEKRA's scope of recognition is available at <https://www.osha.gov/nationally-recognized-testing-laboratory-program/dekra>.

The December 2021 application was

amended a third time on February 28, 2024 (OSHA–2019–0009–0010), to withdraw two standards from the original request. This notice covers the remaining seventeen standards. OSHA staff performed a detailed analysis of the application packets and reviewed other

pertinent information. OSHA performed an on-site review of DEKRA’s Arnhem, Netherlands site on June 5–7, 2023, in which assessors found some nonconformances with the requirements of 29 CFR 1910.7. DEKRA addressed these issues sufficiently, and OSHA staff

has preliminarily determined that OSHA should grant the application.

Table 1, below, lists the appropriate test standards found in DEKRA’s amended application for expansion for testing and certification of products under the NRTL Program.

III. Preliminary Findings on the Application

DEKRA submitted an acceptable application for expansion of the scope of recognition. OSHA’s review of the application files and pertinent documentation indicates that DEKRA has met the requirements prescribed by 29 CFR 1910.7 for expanding the recognition to include the addition of the seventeen test standards for NRTL testing and certification listed in Table 1. This preliminary finding does not constitute an interim or temporary approval of DEKRA’s application.

OSHA seeks comment on this preliminary determination.

IV. Public Participation

OSHA welcomes public comment as to whether DEKRA meets the requirements of 29 CFR 1910.7 for expansion of recognition as a NRTL. Comments should consist of pertinent written documents and exhibits.

Commenters needing more time to comment must submit a request in writing, stating the reasons for the request by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer time period. OSHA may deny a request for an extension if it is not adequately justified.

To review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Occupational Safety and Health Administration, U.S.

Department of Labor. These materials also are generally available online at <https://www.regulations.gov> under Docket No. OSHA–2019–0009 (for further information, see the “Docket” heading in the section of this notice titled **ADDRESSES**).

OSHA staff will review all comments to the docket submitted in a timely manner. After addressing the issues raised by these comments, staff will make a recommendation to the Assistant Secretary of Labor for Occupational Safety and Health on whether to grant DEKRA’s amended application for expansion of the scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of the final decision in the **Federal Register**.
