## DEPARTMENT OF LABOR

### Agency Information Collection Activities; Submission for OMB Review; Comment Request; Methylene Chloride Standard

**ACTION:** Notice of availability; request for comments.

**SUMMARY:** The Department of Labor (DOL) is submitting this Occupational Safety & Health Administration (OSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

**DATES:** The OMB will consider all written comments that the agency receives on or before December 13, 2024.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Nicole Bouchet by telephone at 202–693–0213, or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:** The standard requires employers to monitor employee exposure to methylene chloride (MC), to provide medical consultation and examinations, to train employees about the hazards of MC in their working areas, and to establish and maintain records of employee exposure to MC. These records will be used by employers, employees, physicians and the Government to ensure that employees are not being harmed by exposure to MC. Appendix B to section 1910.1052 contains medical surveillance questionnaire forms for workers that may be exposed to methylene chloride. Based on the animal evidence and three

epidemiologic studies previously mentioned, OSHA concludes that Methylene Chloride is a suspect human carcinogen. The medical surveillance program is designed to observe exposed workers on a regular basis. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 13, 2024 (89 FR 65937).

*Comments are invited on:* (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

*Agency:* DOL–OSHA.

*Title of Collection:* Methylene Chloride Standard.

*OMB Control Number:* 1218–0179.

*Affected Public:* Private Sector—Businesses or other for-profits.

*Total Estimated Number of Respondents:* 89,760.
