

Reprezay akoz pale a *pa* ok.

Pwogram Pwoteksyon Denonsyatè OSHA a aplike plis pase 20 lwa ki pwoteje anplwaye yo atravè plizyè endistri pou rapòte vyolasyon yo.

Yon anplwayè pa ka pran revanj lè li pran aksyon negatif kont ou pou rapòte blesi, pwoblèm sekirite, oswa lòt enkyetid. Rele OSHA depi ou kwè ou te viktim yon aksyon negatif, tankou:

- yo te revoke w
- resevwa mwens pèman
- yo chanje pòs ou

Travayè yo gen dwa!
